English

Experience

2022.08 - Present

ClearSale S.A.

Senior .NET Developer

I'm currently working as a Senior Software Developer creating a new solution based on the Brazilian PIX Open Finance system, but before that I was in another team maintaining and creating new features for the ClearSale billing system, which is provided to several marketplace companies. I joined in august 2022 through the former Beta Learning which later in 2023, was purchased by ClearSale.

2020.03 - 2022.08

Zup IT Innovation

Mid-Level .NET Developer

I worked as a backend developer for Itaú Unibanco within Zup. I also worked as the team's API Owner being directly related to the entire CI/CD process of our API Gateway hosted on AWS.

2019.08 - 2020.03

DTI Digital

Junior .NET Developer

I worked at DTI developing APIs in .NET Core for BS2 Bank where I learned a lot about backend programming. I worked on developing solutions that directly support the mobile app of BS2 Bank, I built solutions in the backend that are consumed by the frontend team in the development of the application. I also worked with a legacy system (internal to BS2) using .Net Framework and Razor as technologies.

2017.09 - 2019.08

Rumo IT Solutions

Junior Software Developer

I worked for Rumo It Solutions allocated to a payroll loan bank. I started at this company as an Intern Developer then they hired me as a Junior Developer.
